Burns & McDonnell Hires Industry Leader to Expand Architecture Services in Texas

FORT WORTH, Texas — [Bryan Floth](#) joins Burns & McDonnell in Texas to help grow the firm's [architecture capabilities](#) and lead [integrated design-build](#) projects. Throughout his nearly three-decade career, Floth has partnered with clients to design and implement complex higher education, commercial, industrial, institutional and mission-critical facilities across the U.S.

“Bryan never backs down from a challenge and relentlessly pursues excellence and innovation,” says [Scott Clark](#), vice president and general manager for the firm's offices in [Dallas and Fort Worth](#), Texas, and [Raleigh](#), North Carolina. “His strong background in architectural design and program management further bolsters our ability to provide full-service, efficient solutions to our clients.”

Floth has broad experience in master planning, consulting, program management, construction administration and architectural design. He specializes in planning and managing large, complex, multimillion-dollar renovation and ground-up projects.

“Throughout my career, I've been fortunate to work in various capacities on complex projects, giving me a deep understanding of how to make a project efficient, seamless and flexible,” Floth says. “I'm looking forward to ingraining myself in the design-build process and working with a diverse group of professionals at Burns & McDonnell to tackle our clients' biggest challenges.”
