

**FOR IMMEDIATE RELEASE****Airports Council International Elects Burns & McDonnell's Brenda Enos to its  
Environmental Committee Steering Group***Enos brings more than three decades' experience to support ACI environmental  
affairs discussions*

KANSAS CITY, Missouri — Airports Council International (ACI) World, the global trade representative of the world's airports, has elected [Brenda Enos](#) to serve on the ACI World Environmental Committee Steering Group. Enos, a project manager with Burns & McDonnell in the Aviation Group in [Boston](#), will provide strategic insight on global environmental affairs pertinent to the aviation industry.

"Brenda's leadership, holistic understanding of the industry and vast experience will be an invaluable asset to ACI," says David Yeaman, president of Aviation & Federal Group and board member, Burns & McDonnell. "ACI's environmental initiatives are focused on promoting sustainable development, while minimizing environmental impacts and maximizing economic and community growth. I'm confident in Brenda's ability to help lead discussions on these initiatives to move our industry forward."

Enos is a Certified Hazardous Materials Manager and a Registered Environmental Manager. She has extensive experience in managing environmental permitting, environmental compliance, and environmental management systems. Prior to joining Burns & McDonnell in 2017, Enos worked for Massachusetts Port Authority (Massport). While working at Massport, she was assistant director of environmental management which included developing, launching and implementing Massport's Resiliency Program. Additionally, she initiated the development of Massport's Disaster Infrastructure Resiliency Planning Study, one of the first of its kind in the aviation industry.

"I am honored to be selected to serve ACI and the aviation industry in this role," Enos says. "I'm passionate about [environmental issues](#) and look forward to leading collaborative discussions that help us continue to establish ACI's policies for the global aviation industry."

Enos is part of a growing team of more than 500 aviation professionals at Burns & McDonnell. The firm provides full-service [engineering, architecture and construction solutions](#) within the industry.
