JUAN GOMEZ TAGLE ACCEPTS NEW PROGRAM MANAGEMENT ROLE FOR BURNS & McDONNELL IN MEXICO CITY

MEXICO CITY, Mexico — Juan Gomez Tagle has joined the Mexico City–based team at Burns & McDonnell to lead development and implementation of the office’s [program management](#) efforts. With the recent growth of the firm’s [Mexico City office](#), including the location’s exciting new addition of its Construction Group and engineer-procure-construct capabilities, Gomez Tagle will be essential in managing these new developments while traveling between Mexico and the U.S.

Burns & McDonnell has a long history of supporting projects in Mexico, and now with the addition of Gomez Tagle’s skills and experience, and the capabilities of the Construction Group, the Mexico City office can provide expanded services for projects in the country while also focusing on program management offerings for projects in the U.S. An important local target would be the remaining major projects still in development by the Federal Electricity Commission under the administration of Rocio Nahle Garcia, Secretary of Energy, and President Andres Manuel Lopez Obrador.

Prior to transitioning to the Mexico City office, Gomez Tagle spent over 25 years in the engineering, procurement and construction management (EPCM) industry in various leadership roles. Most recently, he wrapped up eight years with AZCO, a Burns & McDonnell subsidiary, serving as director of program management and project controls.

“Juan is certainly a welcomed addition to our growing team,” says Eduardo Andrade, general director for Burns & McDonnell in Mexico. “His 25 years of leadership skills and EPCM construction experience will help us increase our service offerings throughout Mexico and the U.S.”

As the Mexico City office continues to grow and expand its service offerings, [career opportunities](#) are rapidly increasing to meet the demand.
